Eman Medhat

Junior Flutter Developer

+20 111 512 9202 | emanmedhat0099@gmail.com | LinkedIn | GitHub

Professional Summary

Junior Flutter Developer and Computer Science graduate (Grade: Very Good, 2026, Menofia University) with hands-on experience building scalable, cross-platform mobile apps using **Flutter, Dart, Clean Architecture, and BLoC/Cubit**. Skilled in RESTful API integration, Dio, JWT authentication, Firebase, and local data persistence. Built 4+ production-style apps spanning healthcare, e-commerce, and AI-powered features.

Technical Skills

- **Mobile Frameworks & Languages:** Flutter SDK, Dart, Object-Oriented Programming (OOP), Data Structures & Algorithms, Asynchronous Programming (Async/Await)
- **Architecture & State Management:** Clean Architecture (Feature-First), BLoC, Cubit, Provider
- **Networking & Backend Integration:** RESTful APIs, Dio Client, JWT Authentication, API Interceptors, Error Handling, JSON Serialization
- **Cloud Services & Storage:** Firebase Authentication, Firebase Cloud Storage, Google Maps SDK, Shared Preferences, Local Caching
- **Developer Tools & Practices:** Dependency Injection (GetIt, Injectable), Git, GitHub, Unit & Widget Testing, Dynamic RTL/LTR Localization, Responsive Layouts, Agile/Scrum

Projects

Chefaa – Graduation Project | *Flutter, Dart, BLoC, Clean Architecture, REST APIs, Google Maps* **GitHub**

- Engineered a multi-role cross-platform healthcare app supporting **4 distinct user roles** (Patients, Doctors, Pharmacies, Healthcare Facilities) using Feature-First Clean Architecture and BLoC state management.
- Architected REST API communication via **Dio** with automatic JWT refresh-token interceptors and structured functional error handling.
- Built an AI-driven lab report parser using **Syncfusion gauge charts** to visualize patient health risk metrics..
- Integrated **Google Maps SDK** for location-based facility discovery and built a reusable shared FileHandlerCubit for document management.
- Implemented complete Arabic and English localization with full **RTL/LTR** layout support.
- Built reusable shared infrastructure (FileHandlerCubit) for document management and implemented complete Arabic/English RTL/LTR localization.

Ema Store – E-Commerce App | *Flutter, Dart, BLoC/Cubit, Clean Architecture, REST APIs, Stripe* **GitHub**

- Developed a full-featured e-commerce mobile application using Feature-Based Clean Architecture and BLoC/Cubit for scalable, predictable state management.
- Integrated RESTful APIs via Dio to power **5 core modules**: authentication, product catalog search, wishlist, cart, and order processing.
- Implemented **Stripe payment integration** with secure payment processing, PaymentIntent handling, and payment result management.
- Implemented profile-driven checkout functionality with automated delivery address persistence (ProfileCubit) and full order history tracking.

Cinemax – Movie Discovery App | *Flutter, Dart, Bloc/Cubit, REST APIs, GetIt* **GitHub**

- Designed a modern movie discovery app featuring full authentication, video trailer streaming, real-time title/genre search, and custom favorites management.
- Applied a lightweight, feature-based architecture with Bloc/Cubit for state management and GetIt/Injectable for compile-time dependency injection.

- Integrated RESTful Movie APIs to power dynamic feeds, trending content lists, user profile management, and secure password reset workflows.

Quiz Application | *Flutter, Dart, OOP* **GitHub**

- Built a cross-platform quiz app featuring dynamic question sets, automatic score calculation, real-time result summaries, and session reset options.

Education

Menofia University Menofia, Egypt
Bachelor of Science in Computer Science – Grade: Very Good *2022 – 2026*
Relevant Coursework: Mobile Application Development, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Software Engineering

Certifications

Route IT Training Center — *Flutter Development Diploma* Dec 2025
Sprints x Microsoft — *Flutter Development Course* May 2025
IEEE — *Flutter Basics* Nov 2024

Languages

- **Arabic** – Native | **English** – Proficient
